

Section 7.5

- (7). Use the substitution method.
- (8). Use integration by parts.
- (15). Use trigonometric substitution.
- (17). Use integration by parts.
- (23). Use the substitution method and integration by parts.
- (36). Use integration by parts.
- (38). Use integration by parts.
- (41). Use integration by parts.
- (45). Use integration by parts.
- (50). Use the substitution method and the method of partial fractions.
- (51). Use trigonometric substitution.
- (57). Use the substitution method.
- (61). Use the substitution method and integration by parts.
- (69). Rearrange the fractions.
- (78). Rearrange the fractions.
- (80). Use the substitution method.
