

International Conference of Mathematics

Probability Session, 2009/07/09

Time	Speaker	Title	Room
13:30-14:15	M. Cranston	A Solvable Model for Homopolymers.	308
14:25-15:10	L.-C. Chen	Critical behavior and limit theorems for long-range oriented percolation	
15:40-16:25	H.-H. Kuo	An extension of the Ito integral	
16:35-17:20	C.-R. Hwang	A Study on Stochastic Systems with Positive Densities: Simulated Annealing, MCMC, Accelerating Convergence, and Spectral Gaps
